

## **Body Telemetry Motion Capture**

**Body Telemetry**  
**Motion Capture**  
Hackday Bewegungsfelder

**3D model of  
victims body**

**3D model of  
victims body**

<https://0x8.ch/HackersCardgame22>

**Inventor: ???**

Normally when TV talks about Motion Capture they show Motion Capture with pattern recognition software and cams. But one could do this also with gyro-sensors, with RFIDs, with LC-Circuits with different frequencies, metal detector, radar, naked scanners..... This image is from <https://backaday.com/2016/09/13/bewegungssteider-is-a-wireless-imu-motion-capturing-system/>

And as in m41 we might add:  
**we are not worthy**

**Inventor: XXXXX**  
Year: ~???

Like the m98 Card they seem to have also a 3D model of my body, most likely generated from a RetinaCCD (eyel) and they also add eventtriggers (t14) that then eg activates electronic psychological warfare, eg chains like  $c05 \Leftrightarrow m32 \Leftrightarrow m44 \Rightarrow m44 \Rightarrow m93$ . Not yet found out how to workaround that problem, i will update this card when i found out, and maybe make some videos to explain.

This card seems to have several DEFCON Level

If i say: "Shrink now asked his mummy for help" the algorithm gets more worse, additional it seems that the System or Project Paperclip then gives out more informations about the complete domn model of the alledged infiltration of switzerland, maybe to obfuscate the 1940s neurology classes? "Chemitrode gesicht" \*icd10-744X <-

Like the m98 Card they seem to have also a 3D model of my body, most likely generated from a RetinaCCD (eye1) and they also add eventtriggers (T14) that then eg activates electronic psychological warfare, eg chains like c66  $\Rightarrow$  m32  $\Leftrightarrow$  m94  $\Rightarrow$  m14  $\Rightarrow$  m93.

Not yet found out how to workaround that problem. i will update this card when i found out, and maybe make some videos to explain.

This card seems to have several DEFCON Level 1

If i say: "Shrink now asked his 'mummy for help'" the algorithm gets more worse, additional it seems that the System or Project Paperclip then gives out more informations about the complete domin model of the alledged infiltration of switzerland, maybe to obfuscate the 1940s neurology classes? \*Chemtirode gesicht\* #cd10-f44x\* <

**Object Recognition based on Action Recognition**

<https://0x8.ch/HackersCardgame22>

**Inventor:**  
One can identify the action with cams PatternRecognition of a certain period of time

**Pseudo Formula:**  
 $\text{actionRecog} = \text{patternRecog}(t)$

based on that data, one could identify objects, since many actions can be done only with certain objects.

**Pseudo Formula:**  
 $\text{actionRecog}, \in \text{Object}$ ,

**Eg. pulling over a pullover normally identifies the pullover.** Especially if you have not that much input data one could identify may objects without having a cam but only with spectral data or WiFi (**Tensors**) to recognize it with the 3D Model (m98/m99). It would take maybe a month but, you could identify almost everything in a period of a month! That's maybe how they know what children do in their bed, we as a community should mitigate that if we can verify that.

**Object Recognition based on Action Recognition**

<https://0x8.ch/HackerCardgame22>

**Inventor:**  
One can **identify the action** with cams **PatternRecognition** **of a certain period of time** based on that data one could identify objects, since **many actions can be done only with certain objects.**

**Pseudo Formula:**  
`actionRecogn = patternRecogn(t)`

**Pseudo Formula:**  
`actionRecogn = patternRecogn(t)`

**Pseudo Formula:**  
`actionRecogn = patternRecogn(t)`

**Eq. B. pulling over a pullover normally identifies the pullover** Especially when you have not that much input data one could identify many objects without having a cam but only with spectral data of WiFi (**Tensors**) to recognize it or with FBiT, Bewegungstypen. Then add it to the 3D Model (m98/m99) it would take maybe a month but you could identify maybe almost everything in a period of a month? That's maybe how they know what children do in their bed, we as a **community should mitigate that if we can verify that.**

## 3D model of victims apartment

**m98**

**Year:** ~????

**Inventor:** **Xxxxxx**

They have some sort of **3D Model** of victims, whistleblowers, whinehat hackers, Lab Rats, Verdinginder **apartment** where you can set everttingers (t14), or even create art out of their victim. Generated from eg, RetinACCD (eye1, a1g, Photogrammetry) or body telemetry (RFID in extremities) or an older system like resonant circuits. Maybe persons position could also be extrapolated just from acoustic data, for example if you have more than 2 Laptops with microphone (see IEEE1588) and a model of the apartment. They have also access to my amyndala implant (bl1) and at the same time triggering CAR (t03) programmed in 2002 with something like c12, t12, t17, t32 card. The Apartment was selected by \$herfamily in 2002 (interactive, bidirectional, almost killed me). I guess they are testing new systems, new socio-psychological design-patterns, new Cyber-War equipment / patterns. They seem to use t00s to "hide" things even police is affected: they did not "saw" a laptop that was obvious on the table, they also "hide" wound care material, and that is really

<https://0x8.ch/HackersCardgame22>

not 100% sure, but maybe they create even games to make us to leave our house/hotel/center, that is the object may need to be won and outside the game as a placeholder for people who are interested in getting

## 3D model of victims apartment

**m98**

**Year:** ~2022

**Inventor:** **xxxxx**

Their have some sort of 3D Model of victims, whistleblowers, whitehat hackers, Lab Rats, Verdingkern apartment or they can set event triggers (t14) and even create an attl out of their victim. Generated from eg. RetinaCCD (eye), a19, Photogrammetry or body telemetry (RFID in extremities) or an other system like resonant circuits. Maybe persons position could also be extrapolate just from acoustic data, for example if you have more than 2 Laptops with microphone (see IEEE1358) and a model of the apartment. They have also access to my amygdua implant (h1) and at the same time triggering CAP (dtz) programm in 2002 with something like c12, t1, t12 card. The Apartment was selected by sherFamily in 2002 (interactive, bidirectional, almost killed me). I guess they are testing new systems, new socio-psychological design-patterns, new CyberWar equipment / patterns. They seem to use Loops to "hide" things even police is affected: they did not "saw a laptop that was obvious on the table, they also "hide" wound care material, and that is really
